Develop a strong academic foundation for the future

This two-week Academy consists of eighteen hours of tuition and will focus on helping your child to improve the academic skills they need to succeed in their English language exams, at school, and university.

At the end of the course, students put the skills they have learned to the test, by completing a simulated academic exam.

On this Academy, students will:

- Develop their academic English across all four areas: reading, writing, listening and speaking
- Learn new techniques to effectively approach different types of exam questions
- Gain useful tools and models to become confident, independent and successful learners
