

QUALITY ASSURANCE & TEACHER TRAINING

Laureate Education

LAUREATE
INTERNATIONAL
UNIVERSITIES*

Laureate are the world's largest private university chain. They have nearly 70 institutions in 25 countries across the world.

SUMMARY

Between 2009 and 2018 Bell partnered with Laureate to provide quality assurance services and teacher training to Laureate's English language departments. During the peak years of this project Bell employed 2 full-time QAD assessors based on Mexico to deal with the Latin America region.

Bell's role was to visit the English departments in selected campuses and assess the academic management and learning and teaching taking place at these centres using Bell's specially developed Quality Assurance framework.

Following each visit a detailed report was produced containing recommendations for further development. Bell also delivered bespoke training for teachers and managers across the Laureate network.

Bell have conducted assessment visits at Laureate institutions in the following countries: Brazil, Chile, Costa Rica, Ecuador, Honduras, Mexico, Peru, Morocco, Saudi Arabia, Spain, Portugal, Turkey, Thailand and Malaysia. For example:

Bell has also provided teacher training and academic management training for Laureate, for example:

- Providing academic management training at Laureate's annual Academic Director meetings.
- Sending Bell experts Jim Scrivener and Silvana Richardson to provide training at the UVM annual academic manager's meetings.
- Giving CLIL training at Laureate Universities in Brazil
- Workshops on reflective teaching and active learning at ULatina Costa Rica
